

ArmorTuf®-NXT

High-Impact Interior Liners for Refrigerated Trailers and Truck Bodies

Next Generation with NexForce Technology

Since 2002, ArmorTuf has been the standard for high performance liners. ArmorTuf-NXT is built on the customer's needs of a more affordable product with similar benefits.

Resists Damage

Engineered matrix of glass reinforcement

Robust resin system engineered for surface hardness and durability

Time-tested embossed surface minimizes scratches and damage

Liners Look Better Longer

Consistent white appearance that is easy to clean and maintain

Does not absorb moisture which can cause weight gain and discoloration

Very low vapor transmission rate

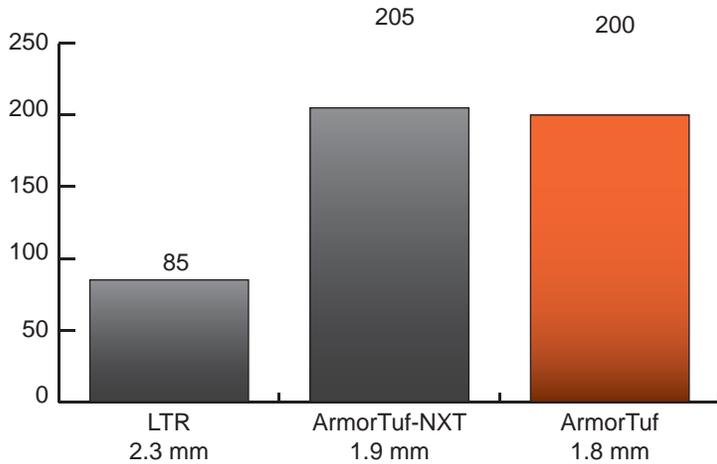

ArmorTuf®-NXT

High-Impact Interior Liner for Refrigerated Trailers and Truck Bodies

Product Comparison

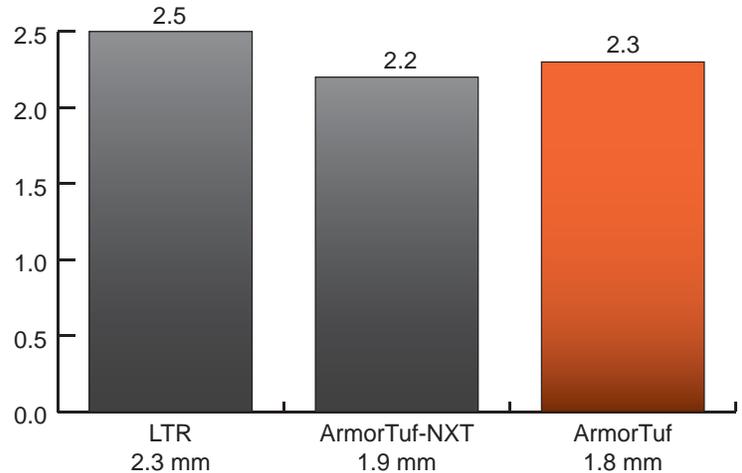

ArmorTuf-NXT has been value-engineered for maximum strength with comparable ArmorTuf performance

PUNCTURE LOAD (KG)

ArmorTuf-NXT has double the impact resistance of a standard liner

WEIGHT (KG/M²)

ArmorTuf-NXT is lighter than a standard liner

SURFACE FINISH

ArmorTuf-NXT's surface is more stain resistant and easier to clean than thermoplastic panels. This is due to the chemically bonded, crosslinked resins, resulting in a harder, more robust panel surface. Thermoplastic panels are heat bonded and result in a softer surface with surface voids that attract dirt and moisture.

ArmorTuf-NXT with a resin rich surface

Thermoplastic with a porous surface which can trap dirt and moisture
